The example data set for processing Ref!ectance Transformation Images (RTI) in this folder are copyright Cultural Heritage Imaging 2012.

These files are provided as an example data set for RTIBuilder. The object being imaged is a fish fossil made available thanks to Dan Kushel.

The original images were shot as canon raw files and were white balanced and color corrected. The archive images for this data set are in the digital negative (.dng) format.

For a complete processing workflow, the guide, 'Reflectance Transformation Imaging: Guide to Highlight Image Processing (pdf)' can be downloaded from the culturalheritageimaging.org website.
